Bendigo Socially Responsible Growth Fund

Monthly fund update - May 2018

Investment objective and return

The Fund has been designed to invest via a selection of high quality investment managers that specialise in managing specific asset classes which incorporate socially responsible investment elements into the overall investment philosophy. We target that at a minimum, 75% of the Fund will be allocated to investment managers who incorporate applying a range of socially responsible investment selection criteria, including environmental, social, ethical and governance (ESG) considerations.

ESG considerations are primarily applied to listed shares (both Australian and International) and fixed interest. The investment portfolio is constructed in a manner that Sandhurst believes will meet the investment return objective of a return after fees in excess of 4% above inflation over a full market cycle (typically 7 to 10 years). Inflation is measured by the Australian Consumer Price Index (CPI) as published by the Australian Bureau of Statistics.

CERTIFIED BY RIAA

RIAA Certification

Make the most of your investment

► The power of compounding

Compounding can be a powerful tool in wealth creation. Reinvesting distributions can be one of the easiest and cheapest ways to increase your holdings over time. You're compounding your investment's growth by continually adding more units which, in turn, will generate distributions of their own.

Why not reinvest your half yearly distributions?

► The benefits of making it regular

Making regular contributions to your investment can both grow your investment and smooth the effects of market highs and lows.

Why not add a Regular Savings Plan to your investment? Establish one from as little as \$50 per month.

You can also use BPAY[®] to add to your investment at any time with as little as \$500. See your statement for your BPAY reference number.
